

DROOMS FACTSHEET

# There are things you simply don't share - Drooms Redaction

**Save time, stay compliant and protect your sensitive data with Drooms AI-powered Redaction feature.**

Enhance your due diligence with Drooms' advanced redaction capabilities, featuring a 90 percent recall rate powered by Drooms' proprietary AI technology. With a focus on control, confidentiality, and efficiency, our state-of-the-art redaction tool empowers you to take control of Personally Identifiable Information (PII) within your data room. Our intuitive user interface presents all options in a single view, ensuring ease of use, even for those without an IT background. Users with minimal download and edit rights can use our redaction tool, making it accessible to a wider audience.

## Your Redaction, Your Way

- 01 Redact Text Searches:** Effortlessly enhance confidentiality with our intuitive redaction tool, which seamlessly searches for and redacts one or multiple terms within documents. Our advanced system leverages Optimal Character Recognition (OCR) and AI capabilities to swiftly identify and conceal specific terms, ensuring the protection of your sensitive information.
- 02 Redact Selected Area:** Experience unmatched precision with the ability to hide selected areas within documents. Simply draw a rectangle over the sensitive content you want to obscure, streamlining the redaction process and ensuring only authorised eyes access the information.

- 03 Redact by Categories:** Enhance efficiency by choosing from up to 26 GDPR-compliant categories, including legal entities, IDs, monetary values, banking, contacts, and addresses. Our tool intelligently highlights and redacts content within your selected categories, ensuring compliance and data protection. Available in English, German, French, Spanish, and Italian, with more languages coming soon

## Redaction – Instant Benefits all at Once

- **Cost-Efficient Redaction:** Our redaction tool is activated free of charge, and customers only pay for additional redacted pages.
- **Expert Redaction Services:** Delegate to our in-house experts for enhanced accuracy and confidentiality, with no data shared with third-party software.
- **Detailed Reporting:** Gain valuable insights and monitor progress of your redaction activities with our reporting feature.
- **Collaborative Redaction Simplified:** Save and resume work seamlessly, even on long redaction processes. Enhance your own work or improve versions created by others and save multiple redacted document versions as required.
- **One-Click Batch Redaction:** Redact multiple documents or entire folders in a single click, saving significant time.
- **On-Click Revert of Originals:** The deal is done and you need to hand over the originals files. No worries! Effortlessly revert one or multiple redacted files to their original, unredacted state with just a single click.
- **Advanced PII Redaction:** Easily redact signature and passport information with a simple click of the corresponding checkbox in our category list. It's that straightforward.
- **Multi-Language Support:** Available in English, German, Italian, Spanish, French, and Dutch, for broader applicability.

Drooms Redaction is activated free of charge in Drooms TRANSACTION and Drooms LIFECYCLE Premium data rooms.
